

What is JSA?

The ABC of WI academy is a comprehensive training program for superintendents, jobsite managers, and field supervisors for ABC sub-contractors and general contractors. Designed to provide relevant, cutting-edge training, the academy is a high energy program that makes jobs easier to manage and improves quality, profitability, and personal job satisfaction.

In a hands-on, team approach participants learn skills in...

- Human Relations and Crew Development
- Linking the Estimate to Production
- Problem Solving & Communication
- Documentation Control & Compliance
- Risk Management & Loss Control (Insurance and Safety)
- Project Planning Methodologies (PPM) Level I/Lean Processes
- PPM Level II/Resource Management
- PPM Level III/Scheduling

Each class session provides participants with techniques for managing crew members and projects that can be applied immediately on the jobsite and then reviewed at the next class session.

*This program is **NOT** for everyone. Only those serious about their leadership roles will benefit from this training. Participants must have a minimum of five years field experience with at least one year in a supervisory or leadership position. If experience is limited, the applicant may be required to participate in a 7-hour crew leader training program.*

Jobsite Superintendent Academy

**With JSA what
you learn today,
you can build on
tomorrow**

ABC of Wisconsin's Jobsite Superintendent Academy (JSA) introduces the latest construction project delivery systems while still underscoring the human element of the construction industry.

With JSA what you learn today, you can build on tomorrow

The Sign of a Professional!

The JSA Professional Designation is only given to graduates of the Jobsite Superintendent Academy. Participants and their sponsoring employers can proudly display this designation as proof of their commitment to project quality, employee development, and customer service.

Each participant will receive:

- Training manual
- Graduation certificate
- Embossed portfolio

The sponsoring employer will receive:

- JSA marketing materials
- Use of JSA logo
- Graduation press release

Why attend JSA and not another course?

JSA is held in Wisconsin; you eliminate travel expense!

Compare costs to:

- an out-of-state, 60-hour course at \$2100
- a university-level, 2-day, 14-hour, \$800 program
- a university-level, 1-week, 40-hour, \$1500 program!

With JSA the cost difference is huge, and with better results! It's an easy decision!

- Applicants must complete the official academy application before registration can be confirmed.

Limited enrollment - Sign up today!

Comments from Previous Participants and Contractors

- *I now see [how] my actions/non-actions have an impact on the bottom line.*
- *I understand why I need to spend more time in documenting the job...I have better insight on how to protect myself and my company more.*
- *I feel it is one of the best courses out of everything that I have ever taken...*
- *If all the supervisors in our company knew the information presented, we would have alot more successful projects.*
- *The time spent was a good investment in myself and in my future and I am very thankful for the opportunity.*
- *Our superintendent came away with a better understanding of how to communicate...whether it be [with] the laborer or the owner. He also seems to have more confidence and it can be seen in our management meetings and just in the way he is carrying himself.*
- *We are very pleased with the immediate positive results that our employees are showing after their graduation from the ABC Jobsite Superintendent Academy. Much of the information they learned is...applicable to their day to day activities. We were also pleased to see an immediate effect towards positive attitudes and concern for company efficiency and profitability.*
